SUMMONED BY PRESIDENT

Country's Resources.

Conservation of Natural Wealth of the Nation.

INVITATION TO GOVERNORS

the Next Congress and Inland Waterways Commission.

ently in Baltimore, and in talking with a meet him at the White House May 13, 14 America that Mr. Stein insisted on reging the Congress and to the inland waterways are indicated in the President's letter to tion. the governors, which has been made publie at the White House. The letter fol-

"The natural resources of the territory are not the original Rock thibets the finest of the United States were, at the time of settlement, richer, more varied and more available than those of any other equal area on the surface of the earth The development of these resources has given us for more than a century a ratof increase in population and wealth un-dreamed of by the men who founded our It is obvious that the prosperity which we now enjoy rests directly upon these resources. It is equally obvious that the vigor and succe-s which we desire and foresee for this nation in th future must have this as its ultimate ma-

Duty to Posterity.

"In view of these evident facts it seems to me time for the country to take acquire now long they are likely to last. We are prosperous now; we should not forget that it will be just as important to our descendants to be prosperous in their time as it is to us to be prosperous

our time. "Recently I expressed the opinion that there is no other question now before the nation of equal gravity with the question of the conservation of our natural re-sources; and I added that it is the plain duty of those of us who, for the moment, are responsible, to make inventory of the natural resources which have been handed down to us, to forecast as well as we may the needs of the future, and so to handle the great sources of our prosperity as not to destroy in advance all hope of the prosperity of our descendants.

"It is evident that the abundant natural sources on which the welfare of this nation rests are becoming depleted, and in not a few cases are already exhausted. This is true of all portions of the United States; it is especially true of the longer settled communities of the east. The gravity of the situation must, I believe, OR MONEY BACK

The "Ar-Light Shades and Paper Flowers. nold" inside squares are used with Dinner Cards painted to order, these. Sizes 18, 20, 22 and 24

Demonstration of Household Electricity.

The suite of seven rooms is equipped with every electrical appliance known in modern housekeeping and housefurnish-

Sewing Machines run by electricity take sewing out of the labor class, and put it where strength, energy and nerve force are no longer used up by sewing. Every woman who must sew a great deal most emphatically should have her machine run by electricity. Doctors are one in the opinion that using a sewing
